A TECHWELL EVENT

## **AT3**

Scaling Agile Practices

Thursday, November 8th, 2018 10:00 AM

## **Scaling Agile in a Large Matrixed Organization**

Presented by:

**Jennifer Krieger**

Red Hat

Brought to you by:

350 Corporate Way, Suite 400, Orange Park, FL 32073  
888-268-8770 · 904-278-0524 - [info@techwell.com](mailto:info@techwell.com) - <http://www.starwest.techwell.com/>

# Jennifer Krieger

Keynote speaker and doer of many things, Jen Krieger is Chief Agile Architect at Red Hat. Most of her more than twenty-year career has been in software development, with Jen holding many roles throughout the waterfall and agile lifecycles. At Red Hat, she led a department-wide adoption of DevOps methodologies, focusing on CI/CD best practices. Most recently, she worked with the Project Atomic & OpenShift teams, the company's two leading products, to help establish strong working relationships while the organization scaled rapidly. Now, Jen is guiding teams across the entire company into agility in a way that respects and supports Red Hat's commitment to open source.

# SCALING AGILE IN A LARGE MATRIXED ORGANIZATION

Jen Krieger  
Chief Agile Architect  
Products & Technologies

# WHAT DOES IT MEAN TO “SCALE AGILE?”

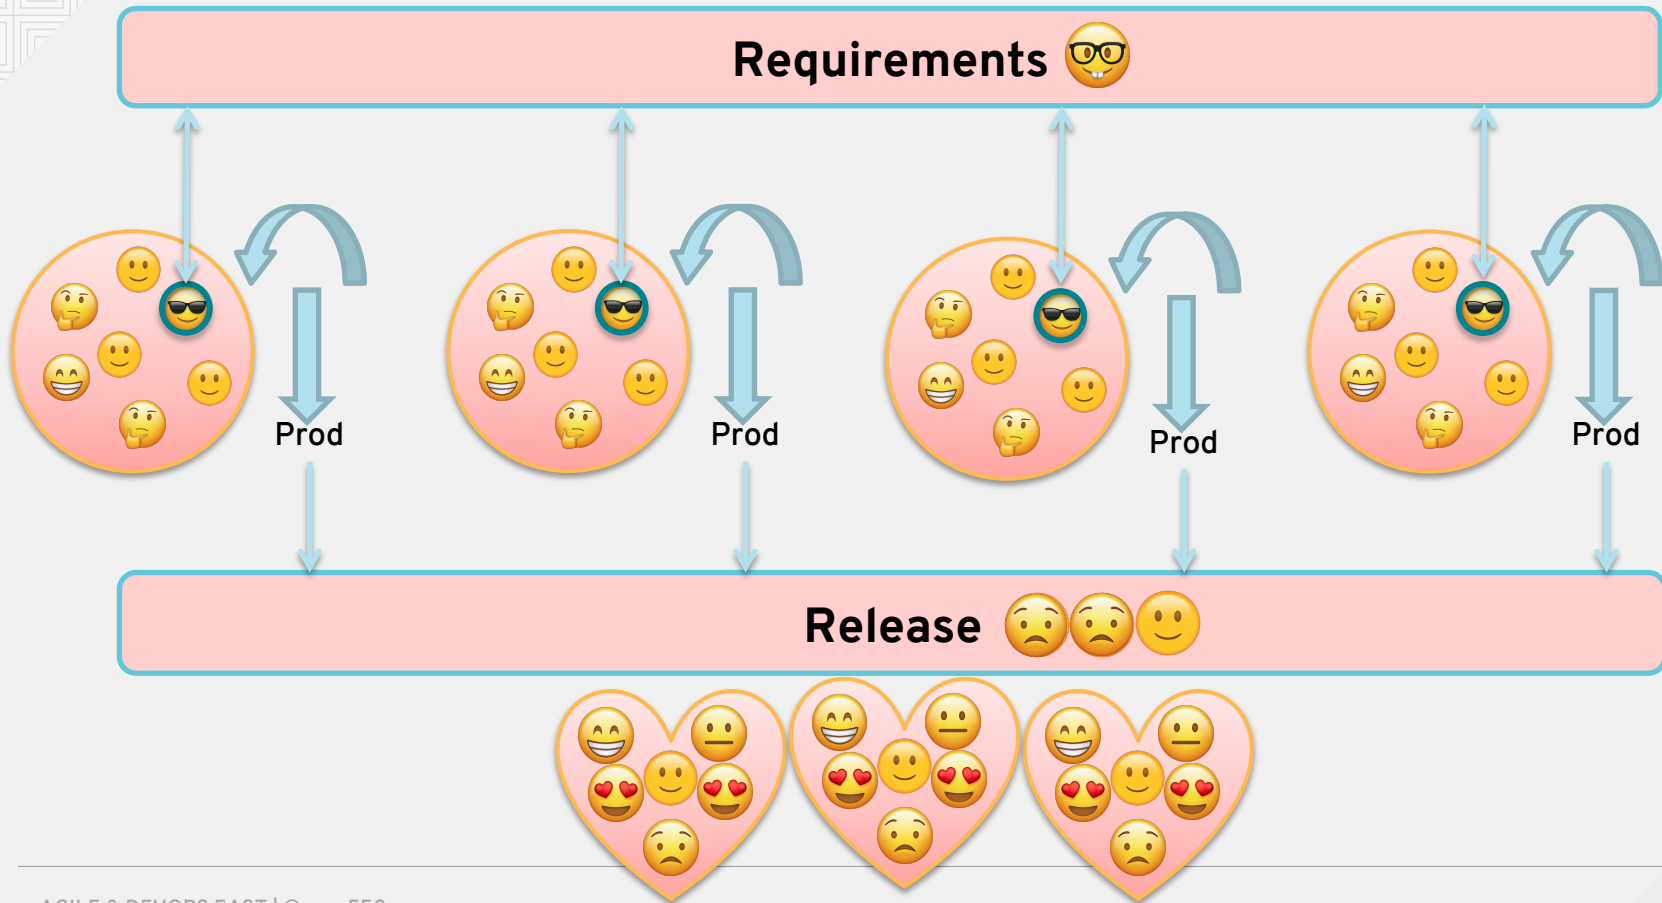

For the sake of brevity, we'll focus on Scrum as the methodology

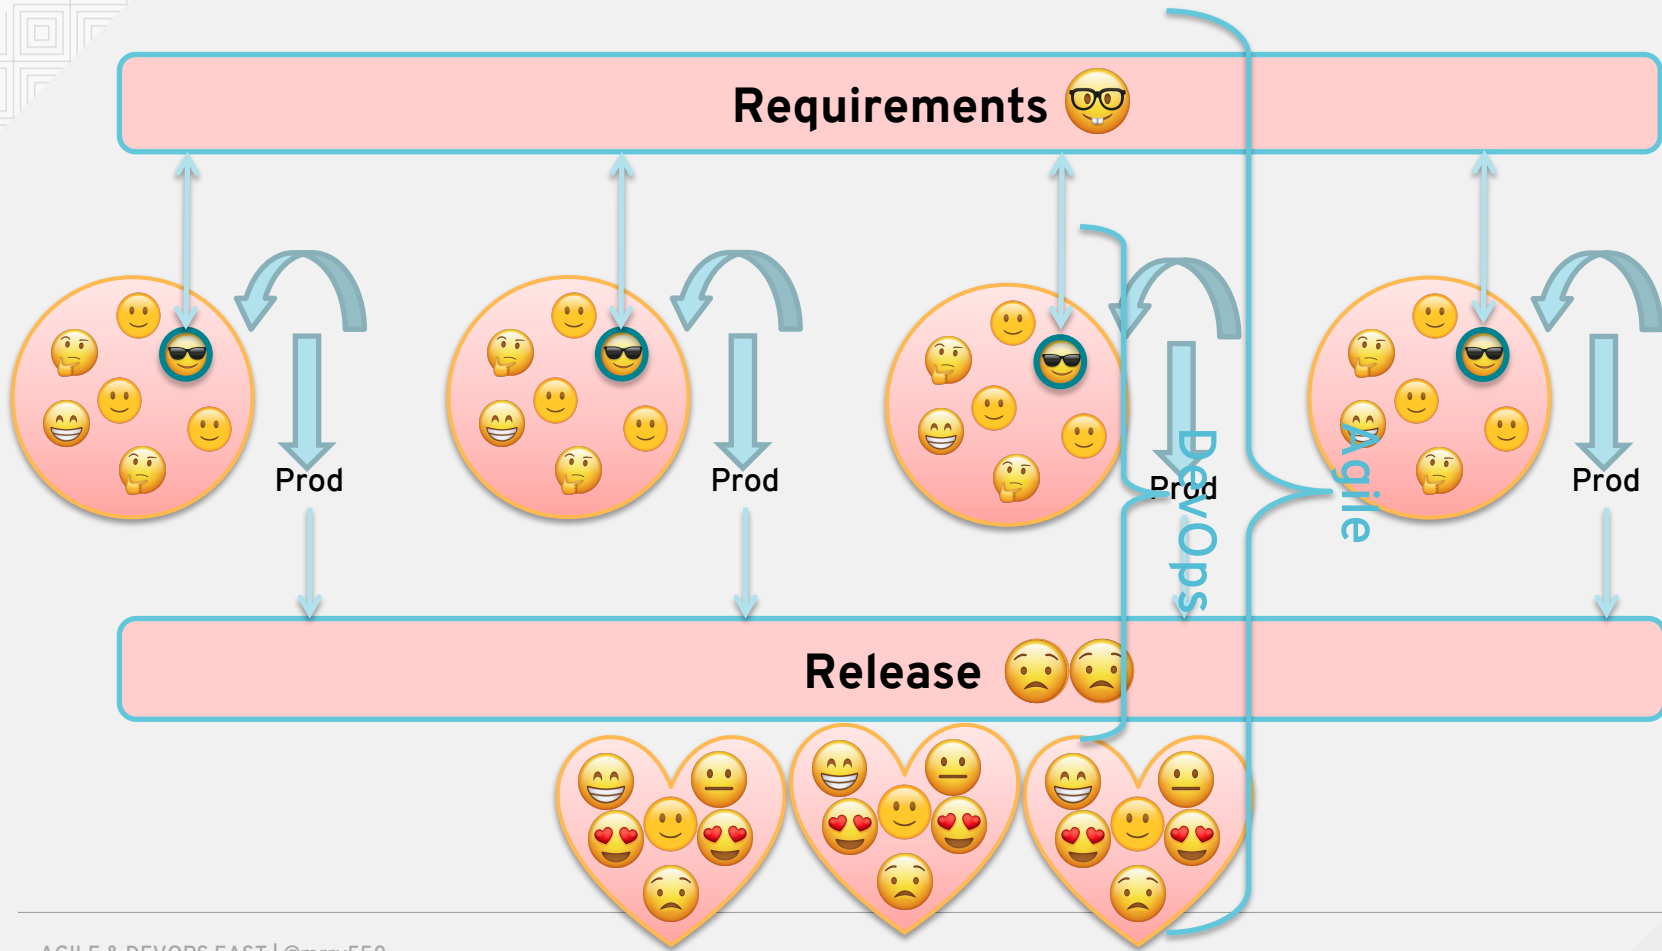

**IS THAT PRACTICAL?**

I mud hike  
and bees  
mannish?!

I would like  
a cheese  
sandwich.

**WHAT DOES THAT LOOK  
LIKE IN PRACTICE?**

# CASE STUDY #1

Growing pains...

# EARLY TEAM CHARACTERISTICS – CIRCA ‘14

8 Hybrid Scrum Teams

2 Week Sprints

6 Week Releases

60 Engineers

5 QE Engineers

1 Release Engineer

1 Architect

2 Agile Coaches

1 Product Manager

**OPENS**SHIFT

5 Hybrid Scrum Teams

3 Week Sprints

~6 Month Releases

40 Engineers

12 QE Engineers

1 Release Engineer

1 Architect

4 Product Managers

# DETAILED VIEW

## PROJECT ATOMIC

Containers	Atomic Host
Kubernetes	Storage
End-to-End Integration	Scale & Performance
Usability	Internal Tooling

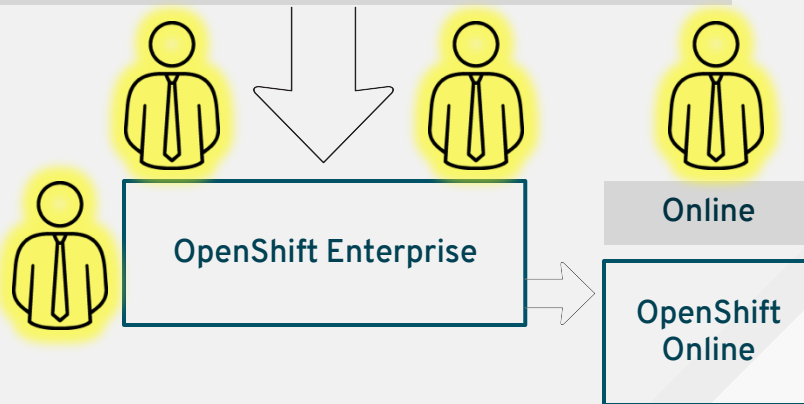

TWO SEPARATE PROGRAMS – DIFFERING RELEASE CYCLES

## OPENSHIFT

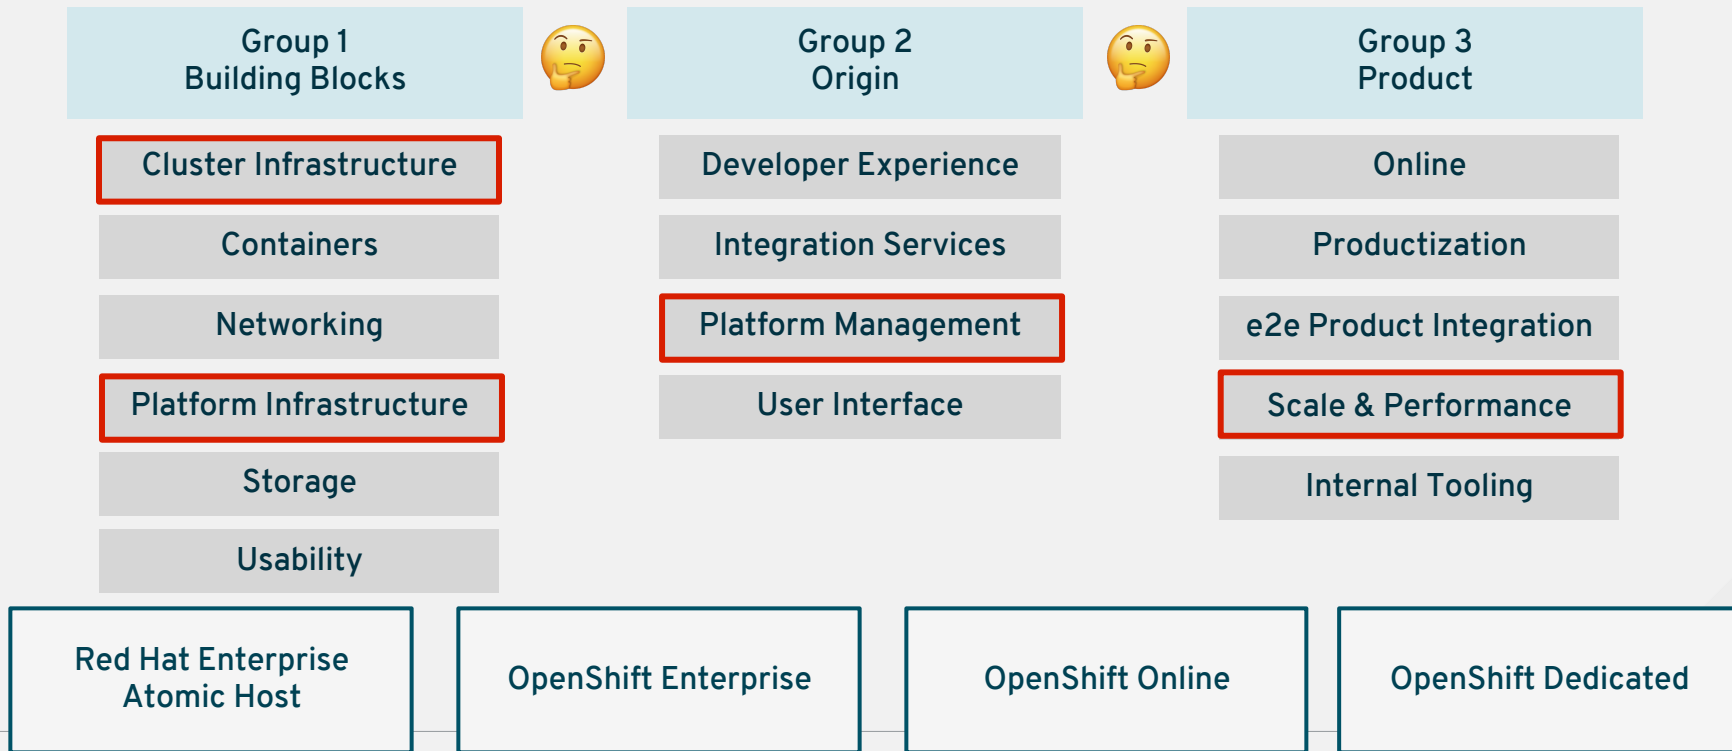

Developer Experience	Integration Services
Platform Management	User Interface

Productization

# POST-MERGE TEAM STRUCTURE – CIRCA ‘15

ATOMIC OPENSIFT

# CASE STUDY #2

By eliminating one bottleneck, we exposed some more.

# SOME MORE BUMPS IN THE ROAD

## ATOMIC OPENSIFT

Too Many Bugs!!!

Group 1  
Building Blocks

Too many people in common meetings...

Group 2  
Origin

Too Many Bugs!!!

I can never get time with the architects!

Group 3  
Product

Too Many Bugs!!!

Cluster Infrastructure

Why does our test automation suck so bad?

Developer Experience

We can't keep up with all the products...

Online

Containers

I have time to help, but don't know how.

Int

There are too many people on this team!

Productization

Networking

Platform

There are not enough people on this team!

Product Integration

Platform Infrastructure

I don't know what the other teams are working on...

User Interface

Scale & Performance

We pretended to Scrum.

Storage

Internal Tooling

Usability

We finished our goals...

All this while working on 6 minor and 4 major releases across the product line.

# TEAM STRUCTURE – CIRCA ‘16

# ALSO STILL WORKING ON...

## COMMUNICATION BOTTLENECKS

**ACTION:** Every sprint meet with entire team. Every week meet with your group. Daily nudge emails when we get close to a release.

**RESULT:** The basic framework works for the teams, but we re-evaluate quarterly to optimize. Most importantly, we conduct meeting audits.

## PRIDE, COMMITMENT AND PASSION = WE SOMETIMES CLASH

**ACTION:** Monthly “Deep Dive” sessions into specific technology areas.

**RESULT:** Helps build confidence. Has sparked lively technology conversations, but nothing negative.

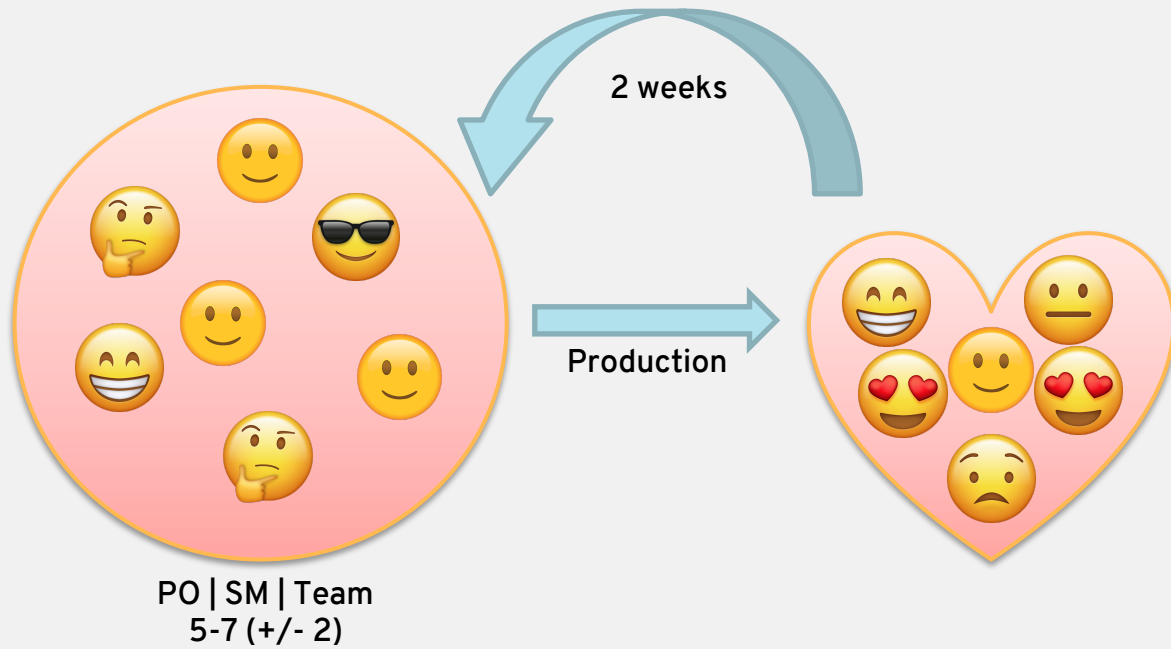

## PRODUCT DEPENDENCY CONFLICTS

**ACTION:** We don't even know yet.

**RESULT:** Everything is on fire.

**WHERE CAN I START?**

# ANTI-PATTERNS FOR SCALING

Never add teams before you really need to.

Never optimize before it is time.

Never stop inspecting and adapting your process.

A large suspension bridge is shown from a low angle, looking down the length of the bridge. The bridge's steel truss structure and suspension cables are visible. The entire image is overlaid with a semi-transparent teal color. The text "LEARN TO RECOGNIZE..." is centered in white, bold, sans-serif font.

**LEARN TO RECOGNIZE...**
